The 15th APF International Forest Machinery Exhibition

The 15th APF International Forest Machinery Exhibition will be held at Ragley Estate, Warwickshire. Quite simply it is the largest forestry and woodland event in the UK. Whether you are involved in the forestry, woodland, arboriculture or utilities sectors or have an interest in trees and timber or wish to see machines, suppliers, skills and competitions you will see nowhere else in the UK, this is the place to be.

One of the highlights of the exhibition will be the European Lumberjack Sports Championships featuring axe men from all over Europe. There will also be chainsaw logging competitions, lorry loading and forwarder driving competitions, harvester simulator felling, horse logging, display and parade of vintage forest machines, chainsaw carving and an extensive woodland crafts area demonstrating everything from longbow making to charcoal burning. As always there will be more than two miles of working demonstrations from tree felling to producing firewood.

The venue is ideally situated close to the M5, M40 and M42 motorways, just 15 miles south of Birmingham, giving it excellent access from all parts of the UK and close to Birmingham International Airport.

The Exhibition again includes a Saturday to allow as many people to visit as possible. There will be too much to see and do in one day so take advantage of our popular discounted two day ticket. There is plenty of accommodation for all budgets available locally. Why not fit in a spot of sightseeing while you are here. Stratford-upon-Avon is only eight miles away.

Please visit our web-site www.apfexhibition.co.uk.
