

Enhance - increase extent

Enhance - improve quality

Maintain - grazing and browsing

Reduce - water inundation

Eliminate - grubbing out

'Scrubnet'

An e-mail discussion group about scrub management and conservation

"Scrubnet" has been set up following publication of FACT's "Scrub Management Handbook – Guidance on the management of scrub on nature conservation sites".

Scrubnet is an Internet discussion group for all with an interest in the conservation of lowland, upland and montane scrub in the UK:

- The group's primary aim is to encourage the exchange of ideas and experiences between managers, and researchers. To give all involved in the management and conservation of scrub as a component habitat of their sites, access to the same knowledge and advice.
- Anyone interested in the management and conservation of scrub habitats in the UK is welcome to join Scrubnet. Debate will not be restricted solely to management techniques. The group should be seen as an opportunity to post and request information, and to promote (not-for-profit) events.

FACT gratefully acknowledges the help of the RSPB (one of the FACT partner organisations) in moderating Scrubnet on its behalf.

For more information, contact the moderator/list owner:
John Day, RSPB Conservation Management Advice
The Lodge, Sandy, Beds, SG19 2DL.
Tel: 01767 680551 email: john.day.lodge@rspb.org.uk

Views expressed on Scrubnet may not be those of FACT or RSPB.

Subscribe to Scrubnet:

- Scrubnet is a FACT email discussion group hosted by Yahogroups.com
- It is free to join, and to use
- Only those interested in scrub management can join – this is to avoid inappropriate posting and 'spam'
- Members can start and contribute to any discussion topic
- Members will have free webspace access, with:
 - future development of a bibliographic database
 - web links
 - space for archiving files, reports and photographs
- It is very easy to remove yourself from the group and to rejoin

To join send a blank e-mail to:
Scrubnet-subscribe@yahogroups.com
or register at:
groups.yahoo.com/group/Scrubnet
